A RARE CHANCE.

Ruptured and deformed people should not forget that Chas. Cluthe, the celebrated Surgical Mechanist, of 118 King Street West, Toronto, will make a trip through the Northwest, as will be seen by the advertisement in another column. Mr. Cluthe has attained a wide spread reputation for the cure of Rupture and Deformities by Mechanical Treatment; and is known all over the Dominion as a man of rare ability and skill. Few have mastered this difficult profession as thoroughly as he has, and certainly none have attained public fame and confidence so rapidly. He deserves his success, so give him a call if you require anything in his line. Be sure to locate your nearest place from his advertisement and to be in time, as Mr. Cluthe's visit cannot be prolonged and you can depend on his being at the place advertised on time.

FRIDAY, SEPT. 12, 1890.

Our crops, compared with those
along the route between here and
Winnipeg, are excellent. Such is the
report of Mr. Betts, who returned
yesterday from his trip east. While
in Regina he attended a meeting of
the Advisory Council at which some
important business was transacted.
Final arrangements are now being
made for compiling the Territorial
pamphlet, and hopes are entertained
that our townsman, Mr. Chas. Mair,
may be induced to compile all mat-
ter relating to Saskatchewan and
supply the introductory chapter to
the whole work. Should he consent,
our district will be fortunate in again
having Mr. Mair's pen describing its
varied resources and climatic advan-
tages.

We are glad to learn that ener-
getic citizens are taking steps to se-
cure the advantages which electric
light privileges will certainly give
those fortunate enough to secure
the first rights. Personally we would
much prefer seeing a thorough light
and water works system established
by the municipality, believing such
would be more efficient and less ex-
pensive to the consumer. However
in the absence of any such prospect,
private individuals who are willing
to risk their capital in either, should
be encouraged. We are unacquaint-
ed with all the steps thus far taken,
so are unable to speak clearly on the
situation; we have faith in our Coun-
cil and expect that the interests of
our citizens will be carefully guarded
in any agreements they may be em-
powered to enter into. The banef-
ul effects of monopolies are suffi-
ciently well known to justify the public
in believing that the Town Council
will not assist in foisting another on
the people.

The British national debt, accord-
ing to the latest statistics, amounts
to £684,954,150, as against £693,-
989,633 last year. It is being paid
steadily but slowly decreased. Ten
years ago it was £739,501,605;
twenty years ago £783,806,836.
Large as the indebtedness is, public
men in England do not make the
same use of the figures as some of
our Canadian politicians do with
our debt.

RE CIRCULARS.

The following extracts from the
report of the Home Mission Com-
mittee of the Presbyterian Church
in Canada, containing part of the
report of the sub-committee on Aug-
mentation, may at the present time
be of interest to some of our readers
and as this report does not circulate
promiscuously among the people, it
may be news to some. On page 48
occurs the following:—

Prince Albert—At the meeting in
March there were laid on the table
and read extracts of minutes of the
Presbytery of Regina and other do-
cuments relating to Prince Albert.
Included was a circular from Dr.
Jardine, intimating his withdrawal
from the Church because of the
action of this committee anent the
reduction of the grant to Prince
Albert. The matter was referred to
a sub-committee. At a later meeting
this sub-committee reported, and the
following finding was adopted:

1. "Even had the charges of de-
liberate fraud on the part of the
Committee and the General Assem-
bly made in the circular sent abroad
by Dr. Jardine been well founded,
it is a matter of surprise and regret
to the Committee that Dr. Jardine
should have made this attack on the
Committee and the General Assem-
bly without having first communi-
cated with the Committee and re-
monstrated with them regarding the
alleged breach of faith. The Com-
mittee, however, agrees to take no
further action regarding the circular."

2. "The actions of the Commit-
tee in regard to the grant to Prince
Albert was in a line with its actions
in other cases. From the beginning
it was the expectation of the com-
mittee, as expressed at the date of
Dr. Jardine's appointment, that the
proportion of salary contributed by
the congregation would be increased,
which was confirmed by the Presby-
tery at the period of induction. It
being made evident now that this
expectation has not been realized,
the Committee, so far from rewudi-
ating its engagement, agrees to pay
the balance due in order to made
the grant at the rate of six hundred
dollars per annum for three years.

If you would see the stock of Dry
Goods at F. C. Baker's you would be

Ullsters. Also the best assortment of
Gent's Furnishings ever shown here. The
prices suit the times.

THE DOMINION ILLUSTRATED.

The *Dominion Illustrated* for August
23 is one of the best we have yet seen—
the engravings being all of seasonable
scenes or of points in the route of the
summer tourist. The St. Lambert Re-
gatta, the Montreal Field Battery at the
annual inspection, the Templars Encamp-
ment, the Cote St. Luc Ranges, are all
timely and disclose a fresh impulse of en-
terprise on the part of the mananement.
The views of the Old Chamby Fort and
the Gaspe Coast will be appreciated alike
by lovers of the picturesque and by stu-
dents of Canadian history. The letter-
press also reveals new and attractive fea-
tures—including a military column spec-
ially prepared. The *Dominion Illustrated*
is published by the Sabiston Company,
(J. P. Edwards, manager) and the office
is still at 73 St. James street, Montreal.

GENERAL NEWS.

LONDON, Sept. 1.—It is believed that Mr. Penwick, M.P., will be chosen secretary of the Trades Union Congress which meets at Liverpool to-day. Mr. Penwick has hitherto been considered sure of the position. Most of the delegates are already on the ground.

It is stated that Stanley has informed the French publisher of his biography that he will devote the proceeds of the book towards the abolition of the slave trade.

The extensive grain mills at Cansel and number of adjacent buildings have been closed. Workmen in the mills narrowly escaped with their lives.

The Sultan of Turkey, after listening to the Armenian patriarch and the abuse of Christians in Armenia, promised that reforms should at once be introduced in the government of that province. The patriarch thereon withdrew his resignation, which he had previously insisted on the Sultan's acceptance.

There is good authority for the statement that the government is preparing a bill for the creation of a new council, another delegation of power to deal with railways and other enterprises. It is possible that the scheme will include the abolition of the office of surveyor.

MONTREAL, Sept. 1.—La Presse takes exception to Sir Charles Tupper's proposition to forward to Canada delegates from Great Britain and Ireland in order that they may acquire personal knowledge of the country. It claims French interests should not be ignored in the scheme. The proposed delegation, it says, cannot ignore the French population here, or the special prosperity of Quebec, although it is not money for the promoting of immigration the French members of the parliament understood Quebec would benefit thereby.

It is understood that Mercier will ask the Legislature, which will probably meet in October, to sanction a loan of ten millions.

Conservative members of the Quebec Legislature are still discussing the choice of a leader for the party. Jean Blanchett, who was Provincial Secretary during the last Talbot ministry has been named for the position.

A member of the 65th Battalion, returning to Gen. Middleton's case, states that while at Grand Rapids awaiting transportation to Winnipeg at the close of the rebellion, he saw nearly every volunteer had furs in his possession.

CHICAGO, Sept. 1.—The Emperor has deferred the crown order of the third degree upon Dr. Peters. The doctor was taken to the Imperial palace Saturday morning to his travels to the Emperor. The royal princes were also taken to listen to the recital.

CHICAGO, Sept. 1.—A train was derailed near Arreus in the Department of the Interior. Seventeen carriages were wrecked. Several passengers were injured.

CHICAGO, Sept. 1.—The price of bread increased in Toronto to-day one cent per loaf.

Major General McInerney, of Scotland, visited this country eight years ago. The General states that he simply on a pleasure trip and will return to the Northwest before he returns.

CHICAGO, Sept. 1.—The funeral of Rev. Dr. Robertson, Presbyterian minister of Chicago, B.C., was held here yesterday. Services being conducted by the Rev. Dr. Herdman and Leach in the Presbyterian church. The funeral was a very large one to the cemetery where he was buried. Deceased came here in 1883 as Manitoba College as a missionary, serving in a tent till the first Presbyterian Church in Calgary was built, he being pastor for two years.

CHICAGO, Sept. 1.—A post office assistant, who has occupied the responsible position for twenty-three years and then to a salary of seventeen shillings a week, killed himself with a revolver today at his rooms on Riechenberger street. Before killing himself he blew the brains of his intended bride, Helene Richter.

CHICAGO, Sept. 1.—The shop assistants of the East End held an enormous mass meeting yesterday in Victoria park to discuss the causes of their ill paid and wretched condition, and to list suggestions for a remedy. After voting to address by various labor organizations, a resolution looking to the formation of a union was adopted.

It appears they paid \$25 to this land agent for the privilege of cutting the hay, it not being his to give, as the Simpsons were led to believe. The owner now comes and claims the hay, and the Simpson boys lose a good part of their summer's work.

REGINA, Aug. 31.—A very sad death occurred here at Mrs. Truesdell's hospital on Thursday, the deceased being a young man named Finlay Ferguson, of Walesley. A few days previous he was attacked with toothache, which subsequently developed into blood poisoning and it terminated in death.

Waghorn's Guide for September is to hand, as usual replete with full table of travel by rail, stage, ocean and lake. We find that the following new Post Offices are opened:—Isle des Chenes, 184 E; Reynoldson, 31 19 21 W. 2; Garmore, 32 24 19; Elva, 24 3 28; Grande Pointe, 10 19 4 E; Glenholme, 17 16 14, and the mail stage connection given for each. The business tables contain all corrections to date.

Our enterprising townsman, Mr. S. McLeod, has undertaken to light the town by electricity. This is a good move and Mr. McLeod deserves the thanks of the citizens. The Town Council have very properly granted Mr. McLeod the sole privilege for ten years; and we think should also give him the right to erect buildings for the needed machinery on the bank of the river opposite the town, as they must be situated near the water, and would not interfere with any other enterprise if built on the north bank.

Work on and around the station ground of the Regina and Prince Albert railway is being rapidly pushed to completion. The numerous buildings have been painted, and present a handsome appearance, while the interior of those that require it are now ready for the plasterers. The grounds in and about the station are being fast levelled up and made passable, and on what a few weeks ago was a solid grove of poplar may now be seen many buildings, railroad tracks in all directions, numberless cars of all description, with locomotives hooting and tooting and running in and out of the town and presenting the most lively scene in our town to-day. The transformation is complete.

See our melons, at 20 cents per yard, and our grey flannel at 15 cents per yard, F. C. Baker.
